SHB No. 89-48

REVISED ORDER APPROVING BOTHELL  
SHORELINE MASTER PROGRAM  
AMENDMENT AND DISMISSING APPEAL

9           Pursuant to the stipulation of the parties dated October 2, 1989,  
10 the Washington State Shorelines Hearings Board has considered the  
11 proposed amendment to the Bothell Shoreline Master Program in the form  
12 set forth on Exhibit A, attached hereto and incorporated herein by  
13 this reference as if set forth in full, and finds that such amendment  
14 is consistent with the policy of the State Shorelines Management Act,  
15 RCW 90.58.020 and applicable guidelines, and therefore approves the  
16 amendment.

17           This order supersedes the previous order entered in this matter  
18 dated October 25, 1989 and shall be effective as of October 25, 1989  
nunc pro tunc.

In recognition of significant environmental features, the extreme southeast portion has been designated Conservancy.

3. The map entitled "Shoreline Environment Designations" at page 45 shall be amended to show the revised City boundaries, to include a symbol within the legend for the Urban - Special Management designation, and to indicate that the USM and Conservancy designations apply to the shoreline along North Creek within the enlarged City limits, shown as proposed designations on the attached map.
